a Waves on: finite disturbance, second seed
Percent
Time (s)
3D energy fraction 100$\chi_E(t)$
Mean-current error / final 2D change
At 1200 s: 1.6% 3D energy
84.2% current error
b Waves off: tiny initial disturbance
Percent
Time (s)
3D energy fraction 100$\chi_E(t)$
Mean-current error / final 2D change
At 1200 s: 70% 3D energy
0.605% current error
